SUMMARY

Performance-driven Full Stack Engineer with 2.5+ years of experience specializing in **Next.js, JavaScript, TypeScript, and Scalable System Design**. Expert in building high-traffic news portals and internal CMS platforms with a focus on SEO and core web vitals. Proven track record of optimizing advertisement workflows and database schemas (MySQL/MongoDB). Transitioned from a Unity Game Development background, bringing a unique perspective on performance optimization and interactive UI.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), C#, SQL, Python.
- **Frontend:** Next.js (13-16), React, Redux Toolkit, Tailwind CSS, SWR, HTML5/SCSS.
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Auth, Sequelize ORM.
- **Databases:** MySQL, PostgreSQL, MongoDB.
- **DevOps & Tools:** Git, Docker (Basic), PM2, Postman, Vercel, Netlify, Unity.
- **Concepts:** System Design, Agile/Scrum, CI/CD, SEO Optimization, State Management.

PROFESSIONAL EXPERIENCE

Web Developer | Ajker Patrika | Banasree, Dhaka

Mar 2025 - Present

- **Architected** and deployed dynamic event-driven features for a high-traffic news platform using Next.js and PostgreSQL, serving thousands of daily active users.
- **Optimized** ad-delivery workflows by integrating Google Ads and 3rd-party scripts, resulting in improved layout stability and reduced Cumulative Layout Shift (CLS).
- **Enhanced** system reliability by implementing PM2 process management and server monitoring, achieving 99.9% uptime for internal publishing tools.
- **Collaborated** with SEO teams to implement Server-Side Rendering (SSR) strategies, increasing organic search visibility for feature sections by 15%.

Frontend Developer (Trainee) | Brain Station 23 | Dhaka, Bangladesh

Sep 2024 – Jan 2025

- **Developed** a scalable e-commerce frontend architecture using React, TypeScript, and Redux, reducing state-related bugs by 40%.
- **Engineered** reusable UI components with Tailwind CSS, accelerating development velocity for subsequent sprint cycles.
- **Integrated** secure authentication flows (JWT) and complex filtering logic for product catalogs, improving user conversion rates.

- **Programmed** 2D/3D game mechanics in C# for Android, optimizing draw calls and memory usage for low-end mobile devices.
- **Designed** custom shaders and particle systems, enhancing visual fidelity while maintaining a consistent 60 FPS performance.

KEY PROJECTS

Next Idea Solutions | Full-Stack Agency Platform (Next.js 16, React 19, MySQL, Node.js, Express, Sharp)

- Built a robust CMS with role-based access control (RBAC), enabling non-technical staff to manage portfolio items and case studies.
- Implemented automated image optimization using **Sharp**, reducing asset load sizes by ~60% without quality loss.
- Designed a secure backend with rate-limiting and Joi validation to prevent common API vulnerabilities.

Pathokbondhu | SEO-Optimized News Portal (Next.js 15, Sequelize, MySQL, SWR, Tailwind)

- Developed a "No-Code" dynamic page builder for admins, allowing real-time home & section pages layout shifts via a custom JSON-based UI schema.
- Utilized SWR for client-side caching, reducing redundant API calls by 50% and improving perceived app speed.

SnapShop | TypeScript E-commerce Frontend (TypeScript, React, React Hook Form, Yup, Context API)

- **Built** a type-safe e-commerce frontend using **TypeScript**, significantly reducing runtime errors and improving code maintainability.
- **Streamlined** user onboarding by implementing robust form validation with **React Hook Form** and **Yup**, decreasing invalid data submissions by 30%.
- **Integrated** RESTful APIs for real-time product rendering and implemented **Protected Routes** for secure Wishlist management.

EDUCATION

Bachelor of Science in Computer Science & Engineering Green University of Bangladesh | CGPA: 3.30 / 4.00

CERTIFICATIONS

- Intermediate SQL Queries — DataCamp
- Intro to Machine Learning — Kaggle
- Python Data Science Toolbox Part 1 — DataCamp
- Python Data Science Toolbox Part 2 — DataCamp

ADDITIONAL STRENGTHS

- Team Collaboration & Communication
- Leadership & Project Coordination
- Problem Solving & Critical Thinking
- Agile Team Participation
- Adaptability & Fast Learning
